

"My company has been dealing with Pioneer Communication Solutions for almost a year now, initially with T-mobile, and now with Vodafone through your company, Yes Telecom.

In this period, I have found Pioneer to be the most professional of communication providers my company has dealt with. Whenever we have had any issues, they have been dealt with immediately, to the end that last week I received new handset and sim after mine had been mislaid, within the hour - excellent support by anyone's standards.

Pioneer Communication Solutions have proven themselves to be the kind of company who we intend to develop our relationship with over the next few years; with both mobile and fixed line communications.

Why change a winning team?"

Richard Goldberg,
MB Lock and Security Supplies
