

"Over the past 18 months, an increase in our sales force has resulted in the requirement for more mobile phones and a package to suit our budget. Having spent many hours talking with various companies, we found Pioneer Communication Solutions Ltd, being able to offer us a contract, saving us overall 25% compared with our previous service provider. Marshall Frieze and his team can only be commended for their service and knowledge of the industry and are a pleasure to deal with."

David Mann, MD Wizz Products
